VIEW PROFILE

The Profile button can be found on several source pages. Players Scanned, Search/Players.

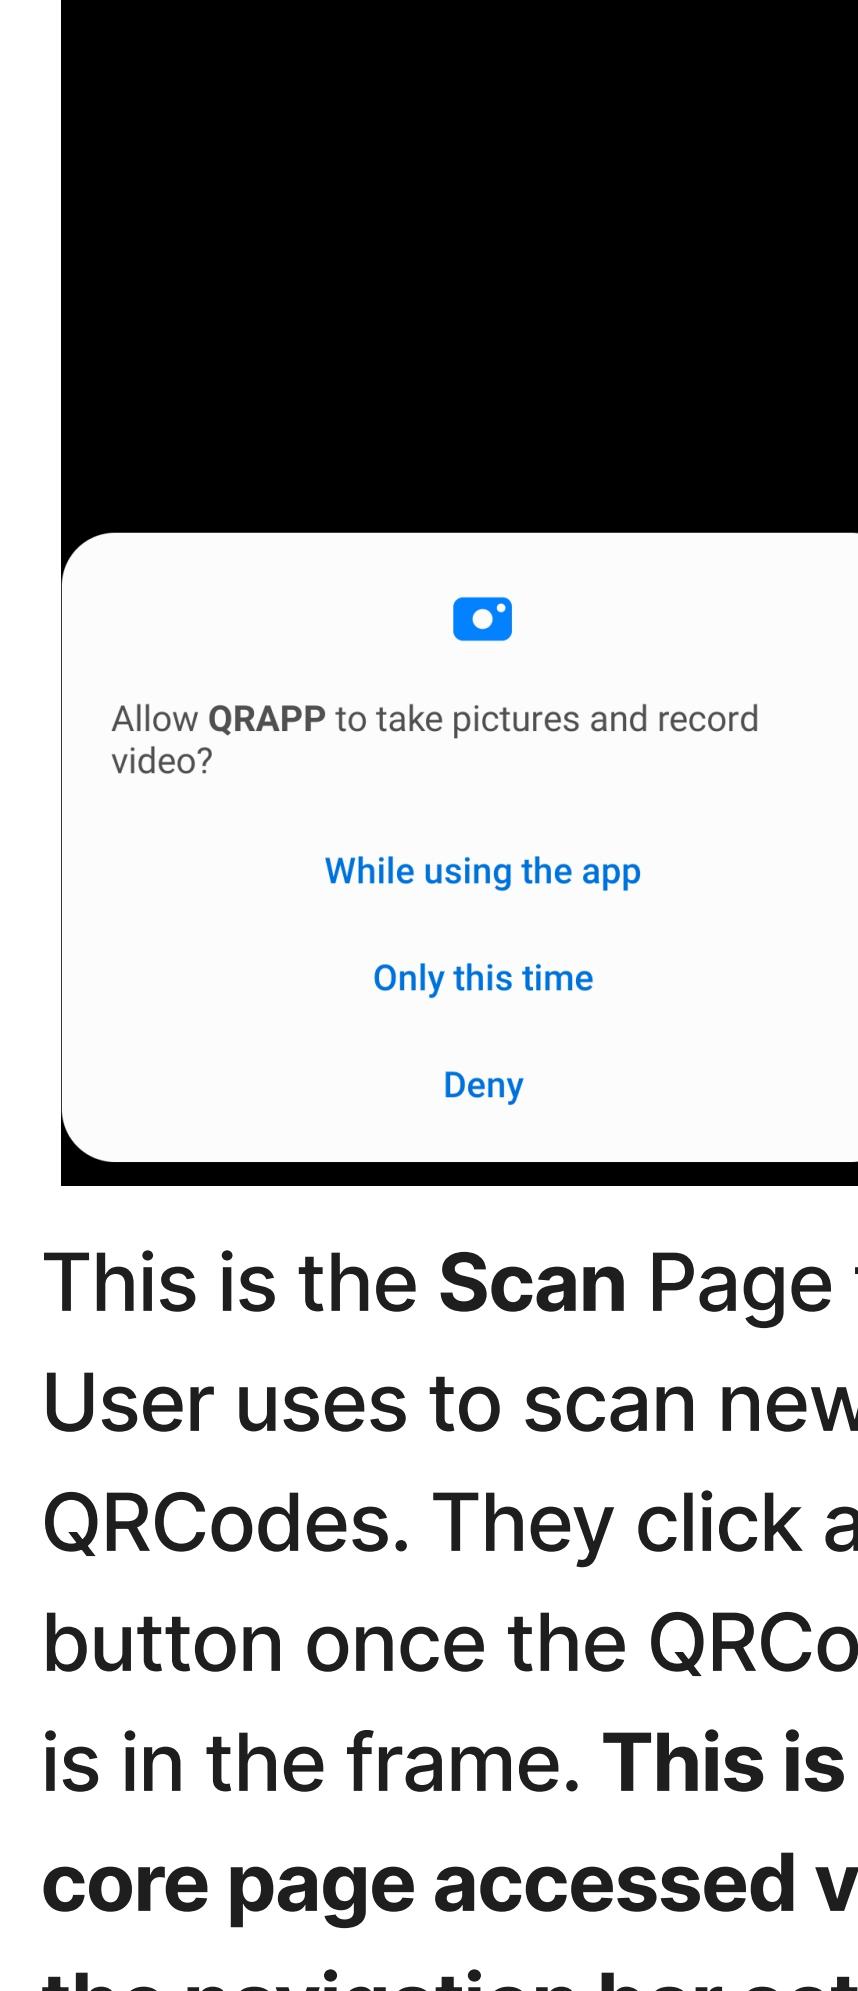

The MyProfile button can be found on all of the core pages

Main Feed (Home Page): First Time Users

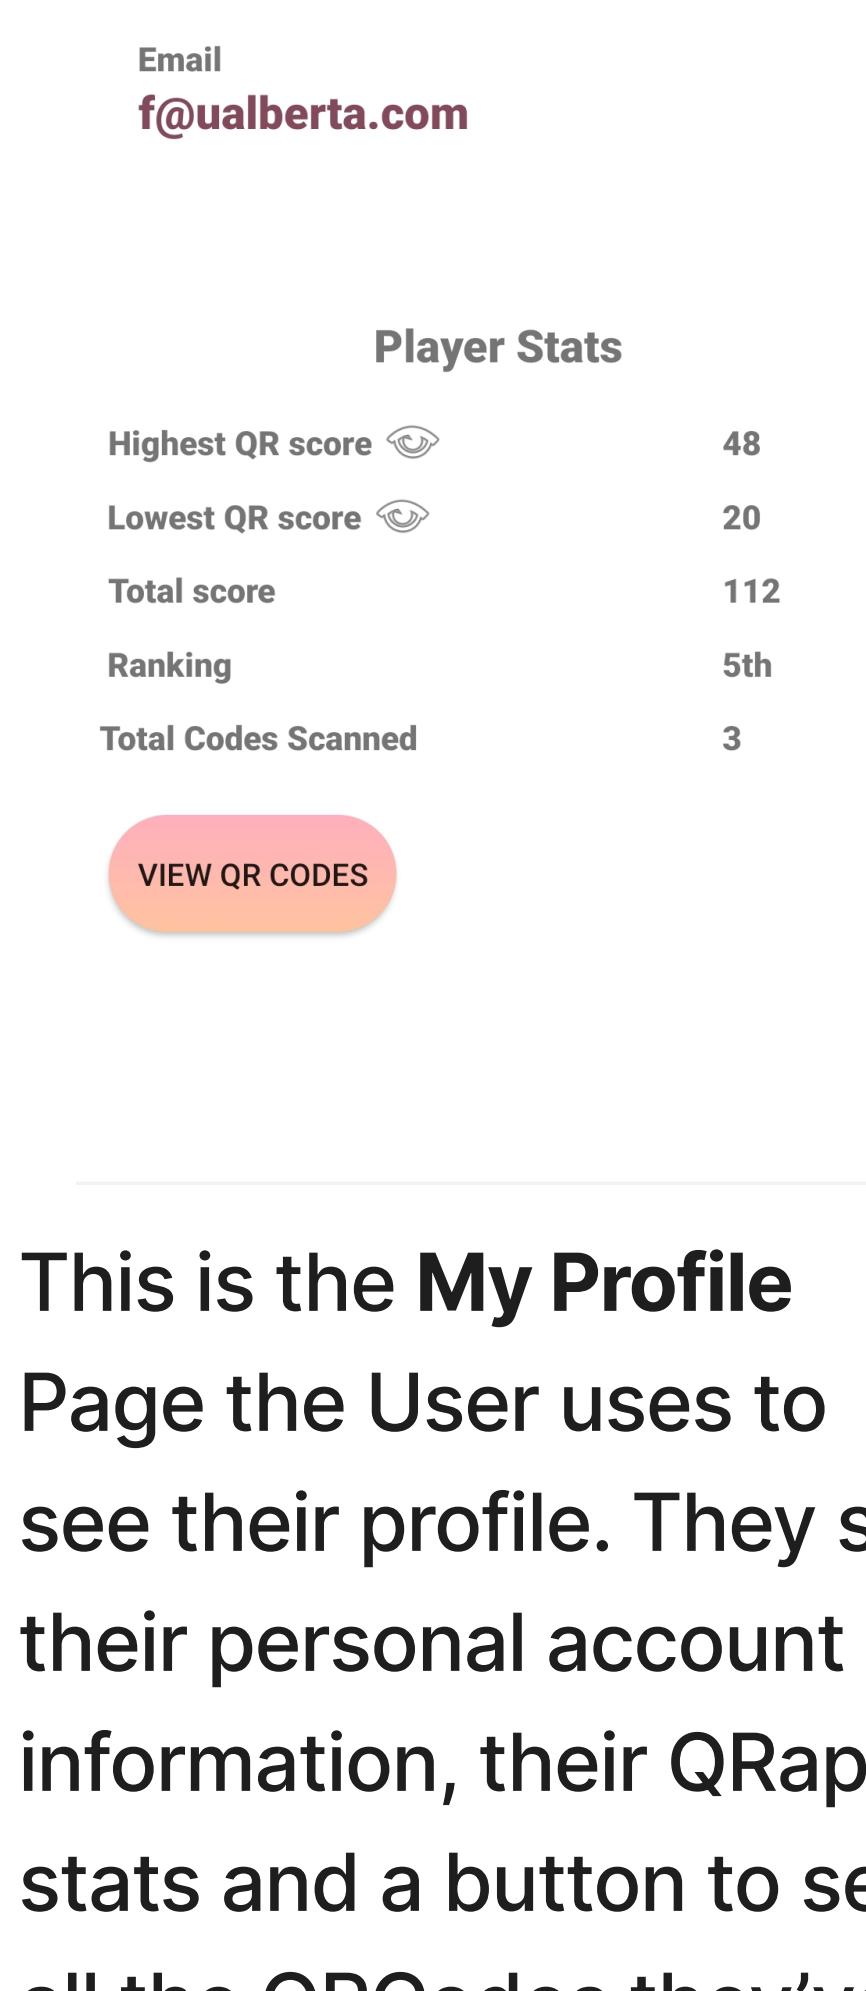

This is the **Main Feed/ Home Page** a Returning User sees. The User sees a feed of QR Codes they can scroll through. This is also the page they see once they've posted a QRCode. **This is a core page accessed via the navigation bar**

Scan Page

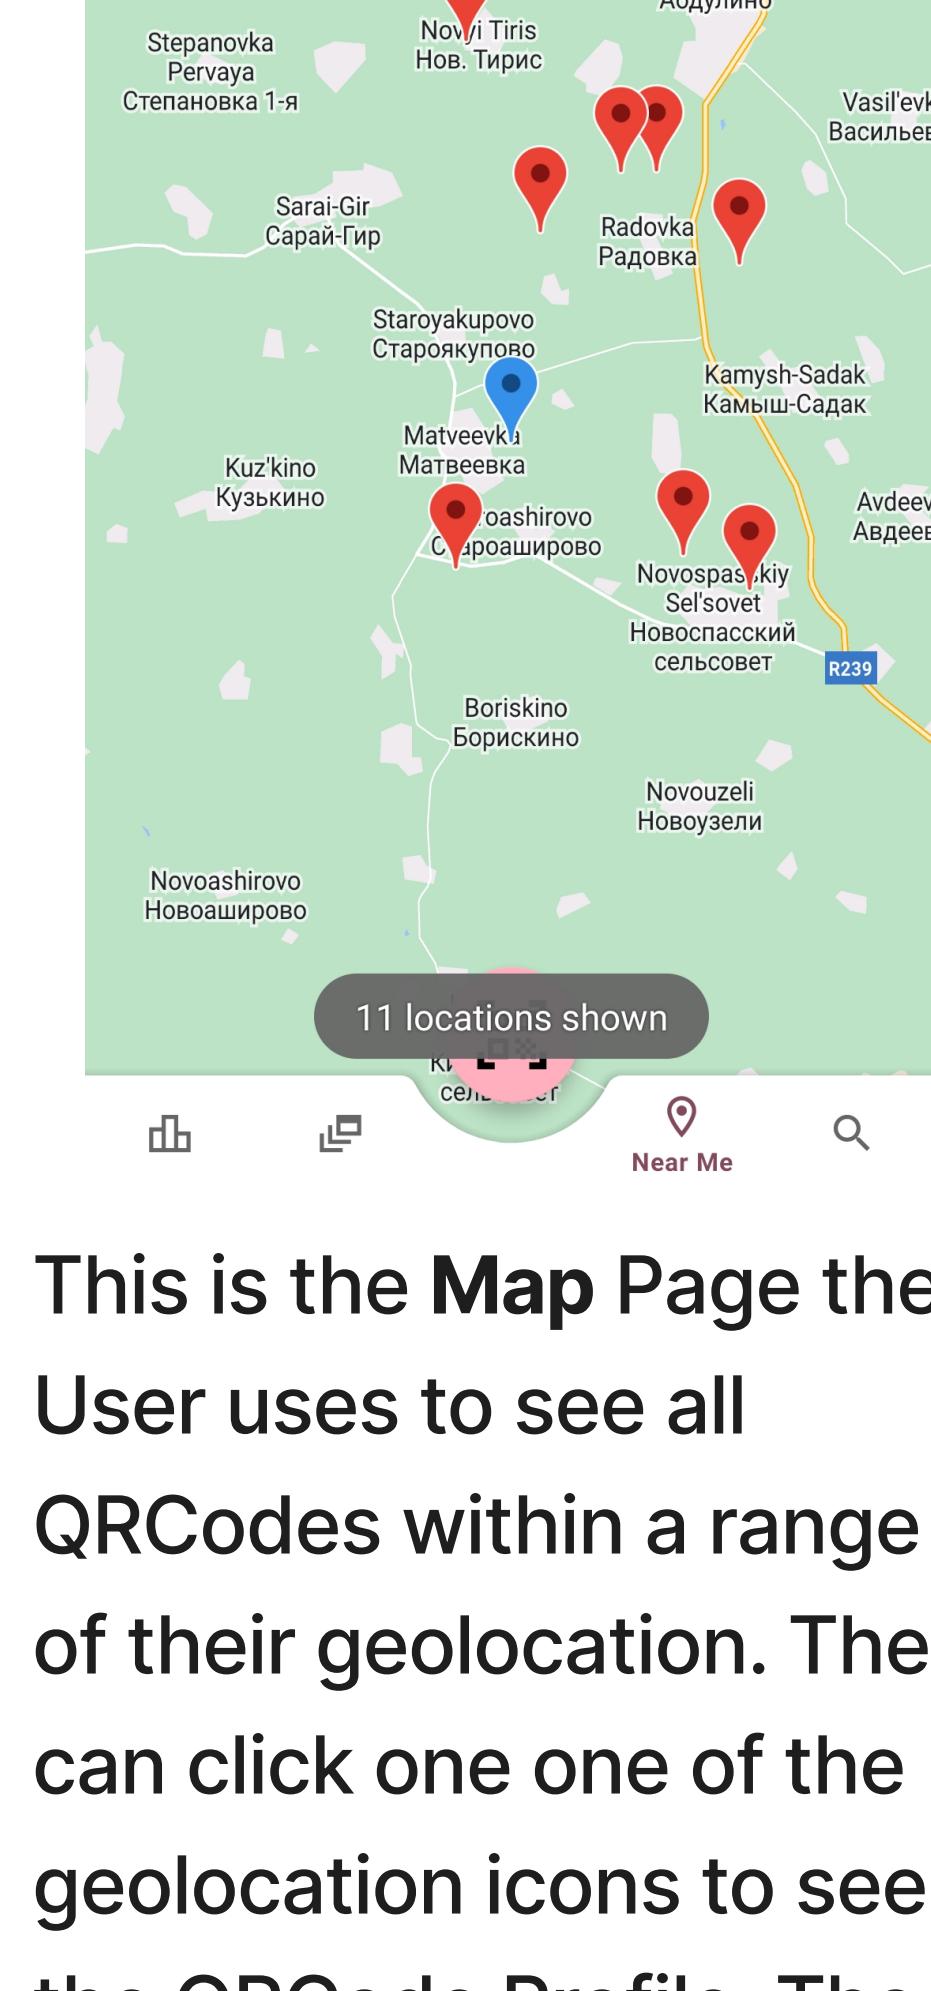

This is the **Scan Page** the User uses to scan new QR Codes. They click a button once the QRCode is in the frame. **This is a core page accessed via the navigation bar action button.**

My Profile

This is the **My Profile** Page the User uses to see their profile. They see their personal account information, their QRapp stats and a button to see all the QR Codes they've collected. **The back button goes back to the core page from which this page was accessed**

Map

This is the **Map** Page the User uses to see all QR Codes within a range of their geolocation. They can click one of the geolocation icons to see the QRCode Profile. The update button updates location. **This is a core page accessed via the navigation bar.**
